MUSICIANS PARADISE

Biography

A new chapter is dawning for the Amersfoort World Jazz Festival. In 2025, we are forging a new path under the name Musicians Paradise: a new name, a new location - De Nieuwe Stad - and a new spot on the calendar: June 12 to 15, 2025.

What remains is our passion to bring jazz in all its forms to the general public. But what is changing is that we are no longer spreading the festival across different venues in the city. Instead, everything will take place at one central festival location - De Nieuwe Stad - where multiple stages such as FLUOR, De Prodentfabriek and Hoog Vuur will provide a diverse program. In addition, there is a large Mainstage, which is partly accessible to everyone for free. This means that visitors can even more easily enjoy the great jazz artists, emerging talent, top international acts and local musicians. All in one place, where unique musical collaborations and encounters occur.

Musicians Paradise is the place where music & people come together. With a mix of paid and free concerts, we make jazz accessible to everyone. Whether you are a seasoned jazz lover or just want to discover how limitless this music is: Here you will experience it.

Welcome to Musicians Paradise.
